

mojaloop

Cross Network, ATM and POS

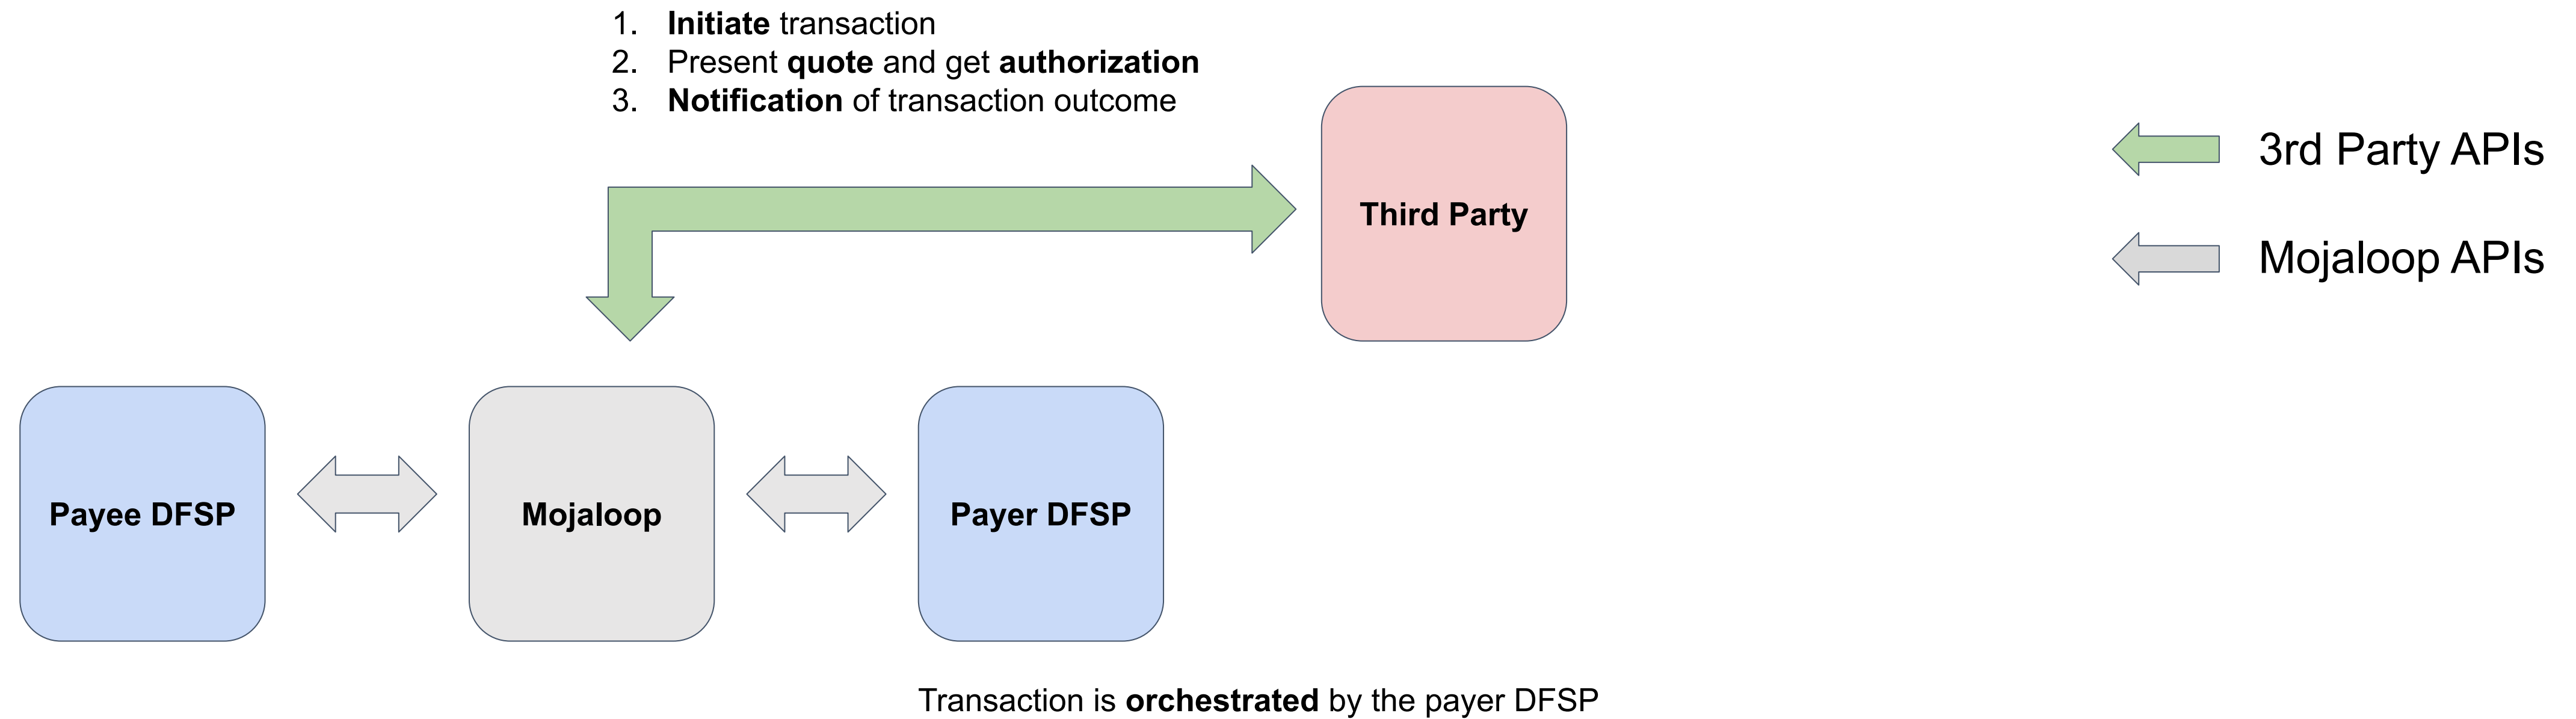

Using the 3rd Party APIs and Test Toolkit

mojaloop

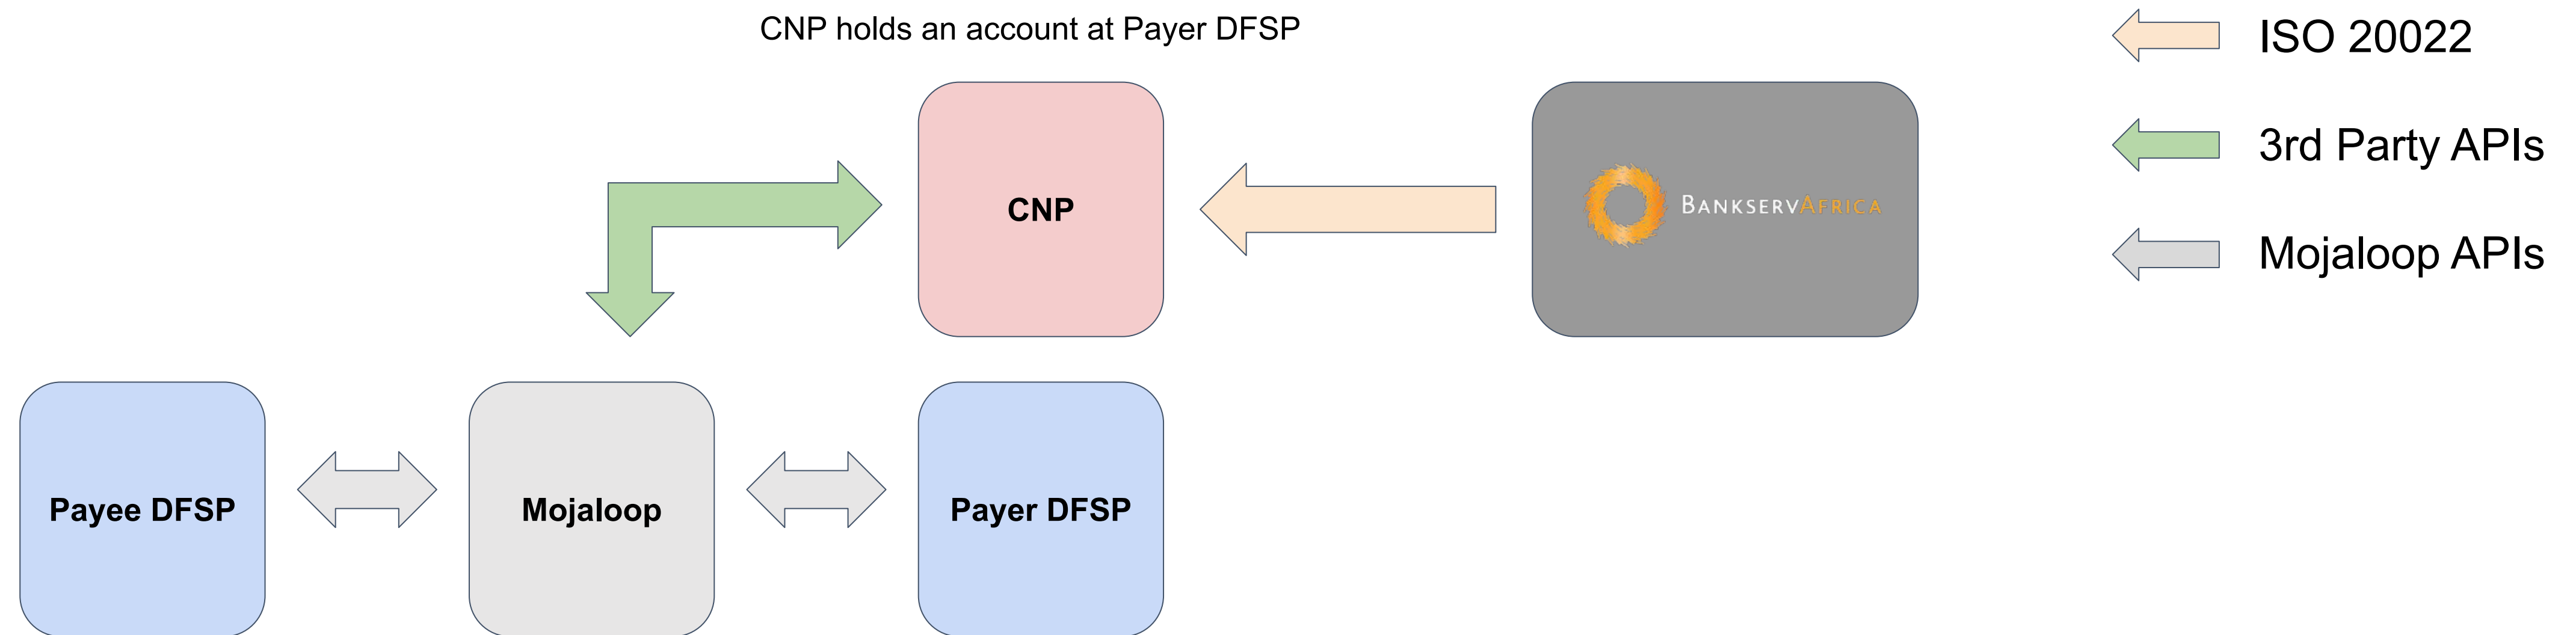

Agenda

- . 3rd Party APIs
 - ISO20022 / Cross Network
 - ATM & POS
- . ISO20022 POC Update
- . Test Toolkit
 - ATM
 - POS

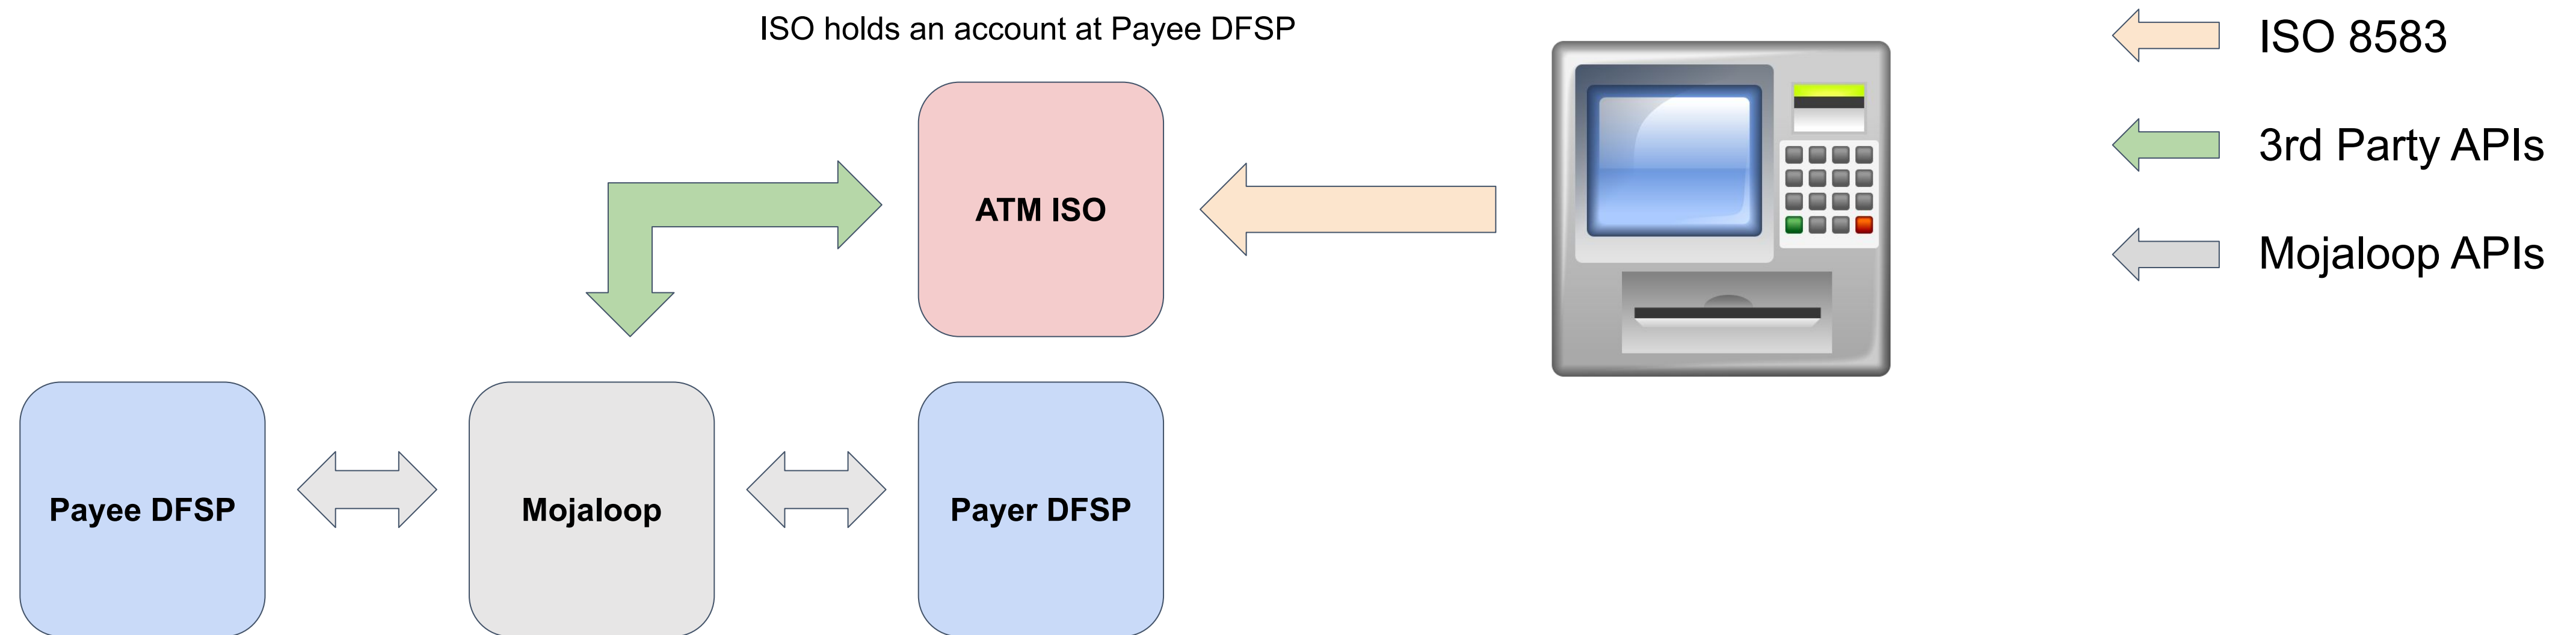

3rd Party APIs

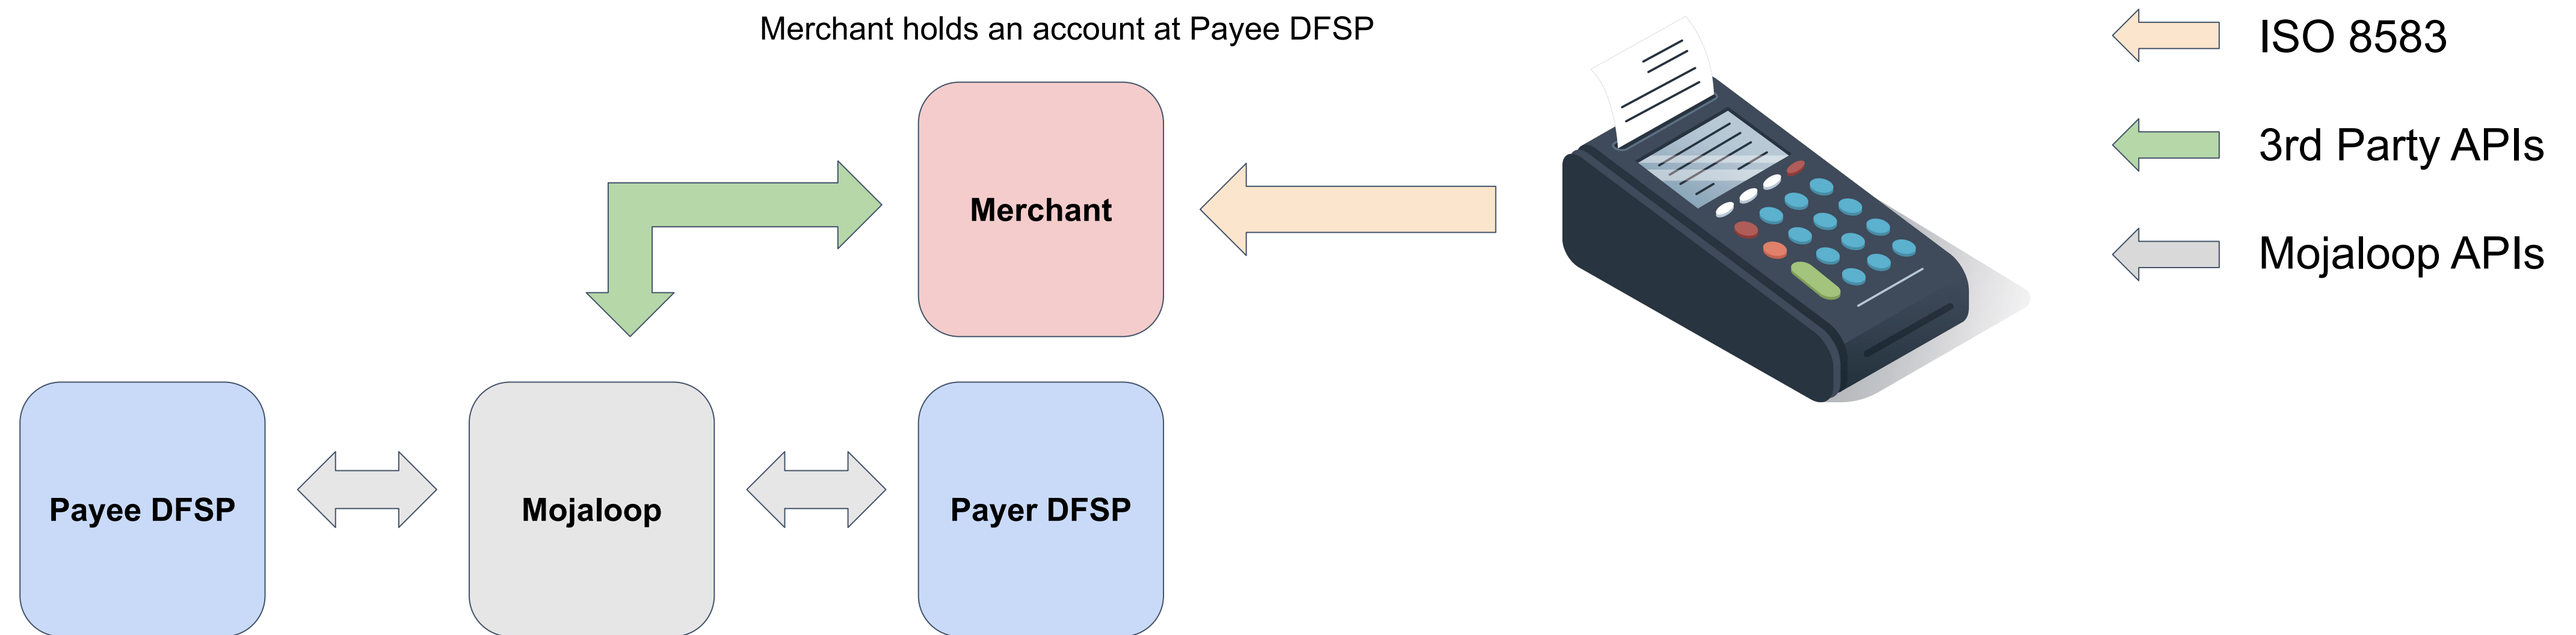

3rd Party APIs - Cross Network

3rd Party APIs - ATM

3rd Party APIs - POS

ISO20022 Cross Network POC

Scope

Develop a POC adapter between Mojaloop and an existing ISO20022-based network

Goal

Identify interoperability challenges that can't be reconciled through message mapping

Add support for ISO20022 to adapter

Update

High level flows mapped out using 3rd party APIs

POC moving in step with PISP updates to 3rd party API on hub

Next

Complete POC development

Update technical spec to use 3rd party APIs

ATM/POS testing and simulators

Scope

Test the ATM/POS flows with the TTK

Goal

Package the ATM and POS simulators and tests with the TTK

Provide integrators with a simple toolkit for testing terminal integration via ISO8583

Update

TTK updates complete and tested

Simulators ready to contribute

Next

Migrate to 3rd party APIs

Demo Time
