

Themes & Roadmap Planning

Agenda for Today

- Presentations on Mojaloop Strategic Themes
- Vote on Roadmap items that align Themes
 - Review: <https://mojaloop.io/vote>
 - Your vote means you plan to participate/contribute <https://app.powernoodle.com/PN/E1022EE08224>
 - Top workstreams get breakout sessions
- Join breakout sessions
 - <https://ipgtech.zoom.us/j/95030356184?pwd=T2Q3UE5jd3hNM1htb2JZM1o5aDIrdz09>
 - Meeting ID: 950 3035 6184 / Passcode: October
 - Pick two to join / 45 min each
- Rejoin Webinar for final report out and wrap up

Theme	Owner
Product Readiness: Be Feature Complete for existing RFP responses for National Switch Procurement	Steve H
Accelerate Business Onboarding: Help the non-tech ecosystem connect, engage and feed back to us better with technology demonstrators not slideware	Steve H
Accelerate Development Onboarding: Remove Friction from joining the Tech Community ("Developer Relations")	Lewis
Support Live Deployments: Live Deployment Customer Feedback; Remove friction & Cost for Live Deployments	Jane
Product Differentiation: Support work on "what makes this different" from average switching software solution available today	Michael
Non-Functional Support: Non-Functionals Matter - improvements in DFSP Onboarding time, Cybersecurity & Performance as a Pillar	Godfrey

Work Stream	Business Value	Existing Workstream?	Theme
Code Quality and Security	Additional development to ensure Mojaloop is of high quality with robust security practices; alignment to PCI and other practices	Yes	Non-Functional Support
Fraud Management	Introduce a framework technology to help with the management and prevention of fraud within the system	Yes	Product Differentiation
Leadership & Community Management (events, governance, communication, tools, etc.)	Provide guidance, governance and support for the development of tools, hack-a-thons and communication to community members	Yes	Accelerate Business/Dev Onboarding
LPS Adapter Enhancements and future Use Cases (ATM, POS)	Provide a interface with ATMs and Point of Sale systems with a Mojaloop hub	Yes	Product Readiness
Native ISO 20022 Support	Required ISO 20222 support to expand message catalogue for Mojaloop flow; Business need to develop a PoC demonstration of message agnostic Mojaloop implementation. White Papers that contrast Mojaloop against existing competition such as SEPA and UPI	Yes	Product Readiness
Payment Initiation Service Provider (PISP) Stream	Enable 3rd party payment initiation within the Mojaloop Ecosystem	Yes	Product Differentiation
